

## Visual Verification

Home Portal™ Server enables you to receive alarm image upon alarm event. Upon an alarm, 3 images will be captured with timestamp and transmitted through MMS/Email/FTP. You also can remotely view the real-time images just on your PC and smart phone. This direct access makes you to respond immediately and enhances your home security.

- See if your children stay and play safely at home.

- Keep an eye on valuables.

- Watch your pet.

## New Definition of Wireless System

*TCP/IP, GSM/GPRS and Video Verification*

**SC-Series**  
*Wireless Touchpad*

## Visual Monitoring

Anytime, anywhere!

- You can directly view alarm images just on your iPhone or Android phone.
- You can also request a compatible PIR camera to capture an image to ensure your family safety at home.

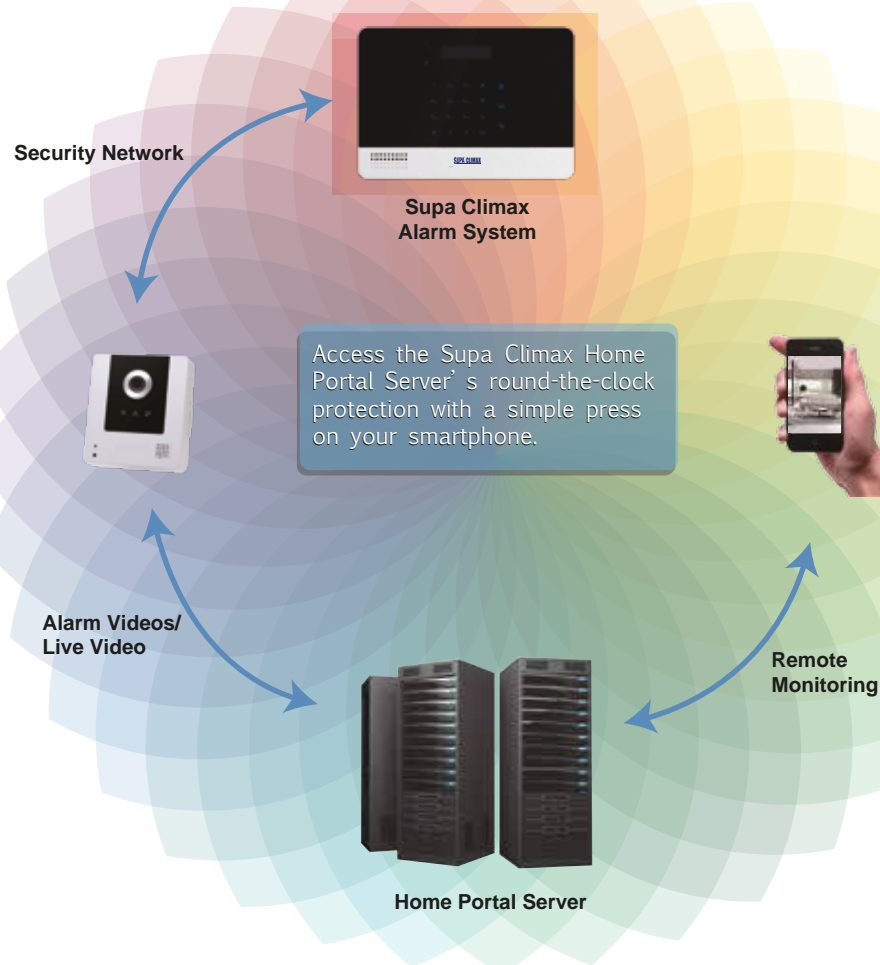

Mobile Apps

**ZigBee**  
Control your world

**Creates limitless possibilities for you to get all you want to see in one simple solution and powerfully broadens the horizon of your life.**

- Set up in minutes.
- Connected to the Supa Climax Home Portal Server for remote control.
- Works with Supa Climax alarm system to provide 1280 x 720 on-site security videos.
- Enables you to watch home remotely from your mobile device.
- Integrates an IR-cut filter for clear video quality.
- Equipped with IR illumination to enhance low light performance.
- The privacy mode helps protect you from unconscious exposure.

CAT A061V1

Get an automatically controlled home to make life easy and efficient. Remotely turn on/off lights or home appliances via a mobile app on your smartphone.

## Monitoring Centers

Monitor client's houses via alarm videos/images.

# Simplify your Life with Smart Solutions

Supa Climax SC-Series covers a comprehensive range of advanced smart security solutions designed to serve sophisticated premises as well as residential houses. Diverse functions such as professional security management, visual verification and home automation can be flexibly selected according to your needs.

Making security simple and accessible to the end user is one of the outstanding features of the SC-Series. You will find operating the vibrant functions of the SC-Series surprisingly easy. Protecting home is no longer the domain of professionals. The SC-Series makes you a security professional.

## Control Panel

- Remotely control your alarm system, arming, partially arm and disarm
- Receive timely alarm events via SMS text message or email
- Track system activity and home event records to control home status remotely
- Receive alert from sensors in your protected area, such as system armed/disarmed, windows/doors opened or motion detection
- Flexibly control home devices
- A smart way to make home environment more comfortable
- For security purpose, you can remotely turn ON/OFF lighting to pretend you are home while you are away on vacation.

### SC-8TPZ

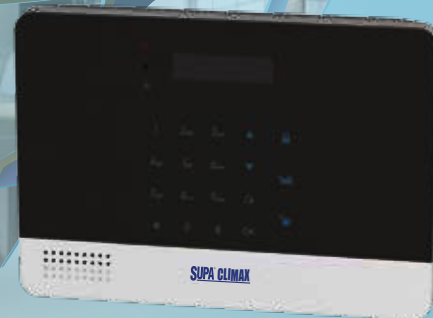

Wireless IP & GSM with Voice Reporting

### SC-1TPZ

Wireless IP control panel

### SC-2TP

Wireless PSTN with Voice Reporting

## Accessories

### SC-DT

#### Transmitter

- Reliable window/door status monitoring
- Built-in reed switch & external contact can be used simultaneously
- Randomized supervision signals for trouble-free system integrity checking
- Low battery detection
- Tamper protection protects the enclosure from being opened/removed from its mounting surface

### SC-PVCam

#### PIR Video Camera

- Captures 10-second video clip upon an alarm event
- Night surveillance up to 5 meters
- PIR detection range: 10 meters
- Easy plug-n-play installation
- Low power consumption

### SC-KF

#### Keyfob

- 4 Buttons for Arm/ Disarm / Partial Arm & Active Panic/Duress Alarm
- LED for transmission indicator
- Low battery detection

### SC-PCam

#### PIR Camera

- Captures 3 images upon an alarm event
- High resolution color VGA images, JPEG 640 x 480
- Night surveillance up to 5 meters
- PIR detection range: 10 meters
- Easy plug-n-play installation
- Low power consumption

### SC-9

#### PIR Motion Detector

- Detection range: 12 meters
- Superior white light noise rejection
- Automatic power saving mechanism & low battery detection
- Surface & corner mounting with tamper protection
- Randomized Supervision signals for trouble-free system integrity checking

### SC-IPCam

#### IP Camera

- High definition video
- Easy installation
- IR-cut filter for clear video quality
- IR LED to enhance low light performance

### SC-OS SC-OSB

#### Outdoor Siren

- SC-OS: AC powered with battery backup
- SC-OSB: Battery operated with low battery detection
- System status indicator with siren beeps & strobe light
- Automatic siren cut-off
- Tamper protection protects the enclosure from being opened/removed from its mounting surface
- Waterproof & UV proof with IP rating 43

### SC-PS

#### Power Switch

- Easy installation
- ZigBee-controlled for home automation systems
- Power supply: 230V~50/60Hz
- Communication protocol: ZigBee Pro HA
- Max. load : 1150W, 230V 5A

### SC-KP

#### Remote Touch Keypad

- 16-button backlit touch keypad with alphanumeric LCD display
- Tamper protection against unauthorized opening/removal
- Automatically turn on backlight when user approaches

### SC-PRS

#### Power Relay Switch

- Easy installation
- ZigBee-controlled for home automation systems
- Power supply: 230V~50/60Hz
- Communication protocol: ZigBee Pro HA
- Max. load : 2300W, 230V 10A

### SC-RFRP

#### RF Repeater

- Extend the distance between main unit & transmitters / detectors
- Compact and low profile design
- LED for Power, Transmission & Fault Indicator

### SC-ZBRP

#### ZigBee Repeater

- Extends ZigBee wireless communication range
- Simply plugs into a standard power outlet for easy plug-n-play deployment
- Elegant and compact design for unobtrusive deployment
